Senior UX Writer | Content Design Strategist | Bilingual (AR/EN)

SUMMARY

Senior UX Writer with 4+ years of experience designing scalable content systems for SaaS and fintech products. Specialized in building bilingual (Arabic & English) content design systems, end-to-end UX writing strategy, and component-level microcopy for multi-product platforms. Proven record of leading content design initiatives, mentoring product design teams, and integrating writing guidelines into design systems. Combines systems thinking with user research to deliver clear, consistent, and conversion-driven product experiences.

WORK EXPERIENCE

Senior UX Writer — Jan 2026 – Present

Lucidya | SaaS Platform (5+ Products)

- Lead content strategy across a multi-product SaaS platform, scaling a writing system that supports rapid feature releases and product updates.
- Designed and integrated a Content Design System into the company's design system, with bilingual (Arabic & English) writing guidelines adopted across all products.
- Owned the content strategy for the Product-Led Growth (PLG) initiative and a new Ticketing product, shaping user-centered messaging from onboarding to retention.
- Mentor a UX team of 10 product designers and lead an advanced UX writing course to upskill the design organization on writing for systems.
- Conduct user interviews and copy testing to validate microcopy decisions and ensure clarity in high-impact product flows.
- Promoted from UX Writer to Senior UX Writer; led the internship program for 6 months as team leader.

UX Writer — Apr 2024 – Jan 2026

Lucidya | SaaS Platform

- Owned end-to-end UX writing across the platform, from microcopy to product strategy, ensuring consistency at scale.
- Built a new UX writing framework adopted across the design org, including a content style guide and product glossary.
- Audited the entire product for copy consistency, identifying and resolving fragmentation across multiple touchpoints and components.
- Designed and delivered a 12-session UX writing course to a UX team of 10, covering UI components, voice & tone, and writing for product systems.
- Created a comprehensive product sitemap to align content architecture with information architecture.

UX Writer — Sep 2023 – Apr 2024

Awaed | Fintech / Investment Platform

- Owned UX writing across 3 financial products, including the launch of a new product line, Al Murabahat.
- Contributed to a full app revamp, redesigning copy alongside the UI overhaul to improve clarity and user trust in financial flows.
- Wrote all microcopy and UI screens, owning component-level copy across investment, onboarding, and transaction journeys.

Freelance UX Writer & Content Creator — Mar 2022 – Sep 2023

Freelance | E-commerce

- Delivered UX writing for Aloha.com's e-commerce project (5-month engagement), including research, validation, and audit of user pages.
- Wrote 30+ UI copy challenges aligned with brand voice, tone, and user personas.
- Conducted UX writing research and rapid prototyping using Figma and Adobe XD.

Remote Content Creator — Jun 2020 – Dec 2022

E-Design | Saudi Arabia

- Created bilingual content for social media platforms across multiple campaigns and brands.
- Collaborated with content specialists to brainstorm and refine campaign messaging.
- Edited and proofread written pieces to ensure clarity and audience accessibility before publication.

Remote Social Media Moderator — Mar 2018 – Jun 2020

E-Design | Saudi Arabia

- Moderated bilingual (Arabic & English) communities across all major social networks.
- Delivered monthly analytics reports to inform content strategy and engagement decisions.
- Contributed to daily content production, including original text, image, and video pieces.

Remote Translator & Editor — 2014 – 2017

Thaqafnafsak.com | Egypt

- Translated, edited, and authored 150+ articles across diverse topics for a major Arabic content platform.
